

The Fairways at Fieldcreek Ranch
Homeowners Association, Inc.

OWNER SURVEY

Standby Electric Generators

Purpose:

The Association has been asked to allow Owners to install a standby electric generator on their Lots. At the Board of Directors meeting on July 21, 2021, the Board voted to ask the Owners whether or not standby electric generators would be allowed in the community.

Definition:

A standby electric generator is a temporary and alternative power supply that is intended to operate automatically when there is a utility outage. If approved by the Architectural Committee, it would be a permanently installed gas-operated piece of equipment that would be installed on the exterior of the residence somewhere on the Lot.

SURVEY

Instructions:

Please answer the question below and return this paper in the included addressed envelope on or before August 27, 2021.

The Association should take the necessary steps to allow for a process to allow Owners to install a standby electric generator for their residence.
