Subject: Gate Painting Monday-Wednesday

Date: September 21, 2026 at 10:59:46 AM

To: fairwaysatfieldcreek@icloud.com

Dear Fairways Residents,

Please see the message below from Jeff Houston, chair of The Fairways' Gate & Landscaping Committee.

Good morning,

Starting this morning, PAINT NV will begin the prep work for repainting our entrance and exit gates. They tentatively expect to finish painting on Wednesday, depending on weather conditions.

When they are working on the project, one set of gates will be out of service and blocked off by traffic cones. The other set of gates will be held open. Since our only option is to route both directions of traffic through one set of gates, please drive slowly and cautiously check for workers/ pedestrians and oncoming traffic before proceeding through the open set of gates.

The special engineered siloxane paint used for this application requires two coats and 24 hrs to cure, so please do not touch it out of curiosity, even if the crew has left for the day and both gates are back in operation.

Many thanks to Norm Kelly for all his work on getting quotes and coordinating this project for us!

Thank you,

Jeff
