## You're invited

To a workshop on Fire Adaptive Communities  
for all residents of the Fairways at Fieldcreek Ranch

With the two devastating fires recently and the loss of over 40 homes near our community we need to take action now! Come see what saved homes and what caused them to burn down!

The Board of Directors is hosting Ed Smith from the University of Nevada to speak to us about what we can do to protect our homes from Wild-land Fires. Mr Smith is an expert on this subject and his program on Fire Adaptive Communities is popular through out the United States.

Come learn what and how to develop a Fire Adaptive Community right here in Fieldcreek Ranch. There will be discussions on landscaping, defensible space and how to plant for fire safety.

Your Board of Directors is committed to developing a Fire Safe Community and we need your help. The workshop will be held on Tuesday, May 8, 2012 at 7pm, at the Wolf Run golf course club house. Come and join all your neighbors for this very important topic.

Light dessert will be served with coffee and drinks
