To all my fellow Property owners at "THE FAIRWAYS AT FIELD CREEK RANCH HOMEOWNERS ASSOCIATION"

It's that time of year, when the weather turns cold, to fill the road asphalt cracks with a rubberized tar. We have scheduled this work to be done this Monday, November 10, 2025. Beginning the work at approximately 8:00AM and continuing throughout the day.

The crack-fill crew will be doing Half the road at a time to allow cars to pass. Be especially careful when approaching the work zones to allow cars coming in the approaching direction to take turns passing through. Please be patient and courteous so we all get home safe and sound. Road traffic cones will be used to alert you to the work areas. If you have landscape or other work crews scheduled to work on your home or yard that day, please give them a heads-up well in advance to either reschedule, or to be extra cautious when traveling inside our community that day. If we all work together to make this a safe and pain free day, then I can promise you a great looking road that will withstand the punishment that this coming winter may bring.

Thank you for your cooperation with this most important maintenance.

Vince
